Electric Fuel Pump

BRAND NAME

OPTION-1

Rationale

Talno is a compact, confident name with a straightforward two-syllable rhythm. Its firm opening and rounded ending balance strength with approachability, giving it a practical character suited to everyday trade.

Independent of any product category, it provides room for the brand to grow beyond its first electric fuel pump.

TALNO

OPTION-2

Rationale

Elec is a short and direct name with an immediate connection to electrical technology. Its crisp sound gives it a precise and technical character, while its compact form creates a clear presence on packaging.

Easy to recall, it offers room to grow from the first fuel pump into a broader range of electrical components.

ELEC

OPTION-3

Rationale

Kalto is also compact name with a clear two-syllable rhythm. Its hard K and T sounds give it a sturdy, practical character.

Short enough to stand out on packaging and be called out at a trade counter, it offers a distinct identity with room to grow across different product categories.

KALTO

OPTION-4

Rationale

Forta suggests fortitude and strength. It positions the pump around dependable performance and durability, while giving the brand room to grow beyond a single product.

FORTA
